To make full use of our services, each client needs to pay a yearly subscription fee of €100 to activate their account. To complete this payment you must have at least €100 on your available account. You must deposit the GCT token, to fund your available account.

2.1 How to purchase GCT using Bitcoin.

You can purchase GCT tokens directly within your Global Cars backoffice. To do so, you must first send Bitcoin to your Global Cars bitcoin wallet. You can do this from any crypto currency exchange of your choosing. When you send/purchase bitcoin, please make sure to send a little bit more than you need, as prices of tokens may fluctuate slightly and to also take into account any fees. So for example, if you wish to activate your account and purchase 1 founder share, you must send at least 1099 euro worth of Bitcoin to your Bitcoin wallet.

To send Bitcoin you must first register on any crypto currency exchange that allows you to buy Bitcoin. From there, you can send Bitcoin to the Global Cars Bitcoin address.
 Once you are ready to send Bitcoin, go to your Global Cars backoffice and click on the BTC wallet button in your dashboard. Under the QR code you will find your Bitcoin wallet address. Copy this address and paste this address as the recipient address to send Bitcoin to from your cryptocurrency exchange.

Important, make sure to copy the Bitcoin address exactly, once a crypto transaction is made, it cannot be reversed.

If it is unverified, this means you have successfully send your tokens to your Global Cars BTC wallet, but it must first be processed in the blockchain, this process on average takes 10-50 minutes. Once the transaction is completed it will be status verified.

2) Once your Bitcoin has been fully processed, you can now exchange it to GCT tokens. Click on the BTC wallet option and click on the Exchange button. Fill in the amount of Bitcoin you wish to exchange for GCT tokens and click on Exchange now.
